

**M O T T O**  
PREMIUM HOTEL & SPA

## SUSTAINABLE TRANSPORTATION METHODS

### 1. Electric Vehicles and Car Sharing

- **Electric Vehicle Rental:** Guests can be offered the option to rent environmentally friendly electric vehicles.
- **Car Sharing Programs:** Guests can be encouraged to use car sharing programs to access vehicles from the hotel based on their needs.

### 2. Bicycle Rental and Sharing Systems

- **Bicycle Rental:** Guests can be provided with bicycle rental services as an eco-friendly mode of transportation.
- **Bicycle Sharing Systems:** By establishing bicycle sharing systems within and around the hotel, guests can be encouraged to use bicycles for short-distance travel.

### 3. Public Transportation Incentive Services

- **Public Transportation Cards and Discounts:** Guests can be offered cards and discounts to facilitate easy access to the city's public transportation system.
- **Public Transportation Information:** The hotel can encourage the use of public transportation by providing guests with information about local bus and minibus routes.

### 4. Walking and Green Areas

- **Walking Paths:** By offering walking paths and parks around the hotel, guests can be enabled to travel on foot in a healthy way.
- **Green Areas:** Encouraging eco-friendly and natural transportation through the natural surroundings and gardens around the hotel.

### 5. Zero-Emission Taxis and Transportation Vehicles

- **Electric and Hybrid Taxi Services:** When providing transfer or taxi services for guests, electric or hybrid vehicles can be preferred.
- **Zero-Emission Vehicle Reservation System:** The hotel can offer guests the opportunity to reserve environmentally friendly transportation options (electric taxis, zero-emission vehicles).
